Personal Protective Equipment (PPE) Request Application (to accompany Resource Request Form)

Please read prior to filling out form:

- Resource need is immediate and significant or is anticipated to be so.
- Supply of the requested resource has been exhausted, or exhaustion is imminent.
- Resource is not available from the internal corporate supply chain, other commercial vendors, or through existing agreements.

The State may require documentation of these requirements before processing your request.

Facility Name: _____ Director/Contact: _____

Facility Address: _____ Phone: _____

Healthcare Facility: _____ Yes _____ No

If **Yes** select all that apply:

- Inpatient (Hospitals) Urgent Care (FQHC, urgent dental) Congregate Medical (SNF's, Jail Clinics, Isolation Shelter Staff) EMS/Fire (AMR, EMSIA, CCA) Primary Care Clinics (stand-alone medical offices)
- Decedent Care (Funeral homes, Coroner)

If **Yes**, Licensed number of beds: _____ Current census: _____

Average Number of Unduplicated Staff Working Per Day (#/24 hours) requiring PPE: _____

Estimated Unduplicated Staff Per Day Requiring PPE for the next 14 days: _____

Personal Protective Equipment (PPE)	Daily (24 hour) Utilization	Number of days stock currently on hand	Total PPE Quantity Requested (14 days maximum)
N95 masks (number each)			
Procedure/surgical masks (number each)			
Face shields (number each)			
Gowns (number each)			
Gloves (number each)			
UCSC Test Requisition (each)			

* Inpatient facilities please use the CDC's [Burn Rate Calculator](#)

Vendor information – List the vendors and the PPE that you are awaiting orders from:

Name of Vendor	Items Requested	Expected Shipment Date	Receipt or Tracking Number

The CDC recommends that all U.S. healthcare facilities should begin using PPE contingency strategies now.

Check box if applicable:	CDC PPE Contingency Strategies:
	Removed face masks from areas where the public can access them, storing them in areas that are monitored, etc.
	Reserving PPE for Health Care Providers (HCP) and replaced PPE normally used for patient source control with other barrier precautions such as tissues.
	Allowing HCP to extend use of respirators, facemasks, and eye protection, beyond a single patient contact due to scarcity.
	Maximizing engineering controls such as barriers and altering work practices to minimize patient contacts
	Reserving respirators for aerosol-generating procedures for care with disease risks such as tuberculosis, measles, and varicella
	Reserving respirators for care provided with prolonged face-to-face or close contact with a potentially infectious patient
	Cancelling non-urgent and elective procedures/appointments which consume scarce PPE
	Using face masks beyond the manufacturer-designed shelf life during patient care
	Reducing the number of staff interacting with persons with influenza-like illness
	Other measures (please describe):

The above is true and correct and your organization is taking steps to optimize the extended availability of PPE.
